MODERN TRADITIONAL JAPAN WARE

HANANURI

Oil is not usually used for URUSHI lacquer ware, however, "HANANURI" is an exception. Using a high technique required to coat many layers with oil blended with URUSHI lacquer, lustrous ware "HANANURI" is born.

FUKIURUSHI

The characteristic of "FUKIURUSHI" is the grain of wood. Coating with URUSHI lacquer and wiping with soft paper repeatedly, matt URUSHI lacquer ware "FUKIURUSHI" is born.
